WORKSHOP MEASURING MICROSCOPE  
**MA 173-...**  
WORKSHOP MEASURING PROJECTOR

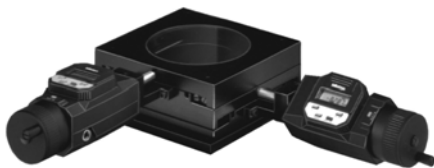

**MA 173-130EG**

**MA 173-240EG**

Co-ordinate table MA 143-6 (50 x 50 mm) with Sylvac digital micrometer heads

Optional: Co-ordinate table MA 143-6 (50 x 50 mm) with DIGIMATIC digital micrometer heads

Optional: Rotary table MA 143-6-70 G  
Division 360°, vernier 10'

Optional: Rotary table MA 143-6-70  
Table glass *with or less* cross-wire

## MICROSCOPE: MA 173-130EG

This instrument fills a gap in the market between the very expensive and sophisticated microscopes suitable for standard rooms and those with very limited facilities.

The microscope is well designed on a rigid base and is suitable for use even in a hostile environment so as to withstand dust, vibration etc.

There are facilities for switching on individually or together, transmitted or incident light.

Only highest quality optical equipment is used.

The microscope is interchangeable, without modification, with projector Type MA 240 with MA 213-4 illumination.

## PROJECTOR: MA 173-240EG

This instrument combines the advantages of the measuring microscope Type MA 173-130EG with observation and measuring on a projection screen. Microscope Type MA 130G is replaced by the projection head MA 240. The projection screen ( $\varnothing$  150 mm) has cross-wires or cross-wires and concentric rings.

The projection head is interchangeable, without modification, with microscope Type MA 130G with MA 114f illumination.
